(Current Biology 29, 4323–4329.e1–e2; December 16, 2019)

In the originally published version of this paper, there were a few errors in Table 1. First, the dates of experiments 15A–15D should be 12/22/2014, not 12/15/2014. Second, the behavior sequence for experiment 12B should be RpCpBCBp**CB**pCpBCpCDRpC → RpC, not RpCpBCBp**BC**pCpBCpCDRpC → RpC. These corrections make Table 1 consistent with Data S1. They have no impact on the paper's conclusions. These errors have now been corrected online. We thank Tom Schneider for bringing these inconsistencies to our attention and apologize to readers for not having noticed them prior to publication.
